IN YOUR REPLY REFER TO FILE NO.

LABORATORY OF HYGIENE,
OTTAWA

August 17, 1954.

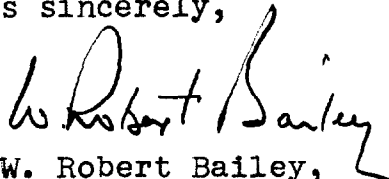

Dr. J. Lederberg,
Department of Genetics,
University of Wisconsin,
Madison, Wisconsin,
U. S. A.

Dear Doctor Lederberg,

May I once again impose on your good nature. Our library here has tried unsuccessfully to find Dr. V. Sertic's address for me in order that I could write to him. Do you have in your laboratory Sertic and Boulgakov's H phages VIII-113 and one other which is specific for the "d" antigen? I would greatly appreciate it if you would be good enough to let me have these, along with any pertinent information on their propagation.

Thanking you for your kindness, I remain,

Yours sincerely,

W. Robert Bailey,
Bacteriologist,
Enteric Laboratory.
